# MANAGED SERVICES

**DELIVERING  
VALUE TO OUR  
DISTRIBUTION  
NETWORK**

Hager Managed Services delivers value to our distribution network by increasing their capacity to bid, supply, and maintain Hager products.

Our services platform equips our distributors to close more work, more often, for more profit.

Hager's Managed Services allows distribution to rely on factory authorized experts to select and specify the right electromechanical products as well as commission the system on the jobsite for seamless turnover to ownership. Utilizing Hager's breadth of reach and technical acumen helps you become the expert, enhancing your business's profitability by providing electronic access control solutions to your customers throughout the USA.

## **WHAT OUR CUSTOMERS SAY**

"Door Specialties Inc. used Hager's Implementation Bundle for the Air Buffalo project in Amherst, NY. Hager worked directly with the end user to install the software on their new server, commission the locks and train the end user for future changes. The services that Hager provided were critical in getting this project completed on time. We are pleased to say this was a successful project for Door Specialties and the end user. We are grateful for Hager's efforts and continued support."
